## The Pillars of our Beating Heart.

### Wisdom through Experience

Since our birth in 1917, we've had the time to experience success and failure, we have tested ourselves through thick and thin, we've seen what products are rejected by the mountain and which become new milestones that raise the standards of alpine sports. We've been blessed with a **100 years of experience** that have sculpted our essence and turned us into the wise man that resides atop the mountain.

### The Alps as our Mentor

Our relationship to the mountain is unique in all its ways. We have literally been raised by the Alps, since all of our manufacturing plants and offices have always been, and will always be, located at their feet. Being surrounded by one of the **oldest and most revered mountain belts** has given us an edge in the market, since the disciplines we dedicate our lives to are not in other parts of the world, they are right here.

### Striving for constructive Perfection

Our products are to be used in the harshest conditions and terrains, therefore we regard **quality** and **safety** as the most basic of all requirements. Any type of innovation must be thoroughly reasoned and tested, and is a challenge we proudly rise up to. Having worked with the **military and aeronautical** sectors, we've gained valuable knowledge that have further refined our technical rigor and our strict guidelines of product perfection and minimal margin of error.

# THE EXTINCT

unearthed by  
**GIPRON**

The Fearless. The Cunning. The Extinct.

The new collection for those who look at danger in the eye, knowing it is the only way to feel alive.

# Personalize your poles

## Sublimation printing for rental models

We offer to graphically customize your Gipron rental poles of choice. This is made possible thanks to our in-house technology of sublimation.

We are able to apply your logos and designs in order to let your product stand out among others, and have a strong visual impact on the ski slopes.
